NEW ORLEANS WARS UPON YELLOW FEVER

City Health Board Begins A Vigorous Crusade

AGAINST STEGOMYIA FASCIATA

Sixty City Blocks Are Now Under Searching System of Inspection and Other Portions of City Are Being Carefully Watched Over.

New Orleans, June 14—As a precaution against possible yellow fever outbreaks in this city, the state and city boards of health announce that sixty city blocks are now under searching systems of inspection and that those portions of New Orleans outside of this closely guarded section are being watched over through co-operation of every physician in the city with the health boards.

The sixty blocks under especial supervision are those in which the yellow fever epidemic originated or was worst last summer. Each house in this district is visited by inspectors at at least every two weeks, their duties including enforcement of the law that all cisterns shall be screened and general sanitary regulations. In this same district an officer watches and reports every case of sickness, no matter what its nature, and makes investigation as to the contributing causes of such illness.

Mosquitoes, especially are under observation. In several cases where deaths have occurred within the sixty blocks, microsmopical examinations of mosquitoes have been made by the city board of health in search for the stegomyia, the mosquito which is believed to carry yellow fever.

In one case as many as fifty of mosquitoes were examined with this object in view, after they had been gathered from a house which had been fumigated. The city board of health reported that no stegomyia were found.

A special health map, colored in red, yellow and green, is kept at the city health office to indicate the conditions daily reported by the inspectors and precautions taken.

The scheme for protection of districts outside of the sixty blocks the city board of health has prepared a blank to be filled out by physicians in case of death of patients. It is accompanied by the following explanation:

"At this time we are naturally especially apprehensive and anxious to discover early cases of yellow fever if they occur, and we, therefore, are depending in our investigations on such reports which reach this office with certificates."

Several cases suspected to be yellow fever have already been reported to the health authorities by physicians, those has been examined by state or city health officers acting in conjunction with a committee of three local physicians. Their examinations have resulted in every case in finding that the disease was not yellow fever.

WILL COST MILLION DOLLARS.

Central of Georgia Will Erect Great Plant in Macon.

Macon, Ga., June 14—The Central of Georgia railroad has purchased of the city of Macon, through the action of the city council, 27 acres of land in the city reserve with the avowed intention of erecting a $1,000,000 shop on the land.

Major J. F. Hanson, president of the road, was present in council, and made the offer verbally, supplementing its first offer of $25,000 by an additional $7,500, just to be fair, he said. He stated that his road would at once put up shops that would be the equal of any similar institution in the south east.

There was quite a scramble for the property in question. B. B. Ford, a Macon man, of Macon, wanting it for warehouse purposes. He offered over $25,000 with several conditions as to title guarantee, which the road waived.

Major Hanson stated that his road was planning extensive terminal improvements in this city and that, for best results would not grant what they asked, but purchased ten or more acres in the suburbs but that the road did not wish to go outside of the city. It is confidently expected in Macon that a new union depot is sure to come in the near future.

Extra Session of Ohio Legislature.

Cleveland, O., July 14—The Leader says that an extra session of the Ohio legislature is asked by the independent oil men of the state. A formal request for the issuance for a special call is being prepared for Governor Pattison, while letters bearing on the subject are to be sent out from the city of Cleveland to every member of the legislature. Should the special session be called, the independent oil men will urge the amendment of the two laws which they deem necessary to restore them fair play as against the Standard Oil company. The first is the anti-discrimination law now in operation in Kansas, and the second is the maximum freight law, which has enabled the independent operators in Kansas to obtain equal rates from the railroads, thus placing them on the same competitive basis as the vast catholic.

Writ of Error Granted.

New York, June 14—A dispatch to the American from Oswego, N. Y., says that Albert T. Patrick, sentenced to death for the murder of William Marsh Rice, heard Tuesday night of Judge Dale's action in granting him the writ of error and stay of execution before the United States supreme court in Washington. This information was received in this city, while the condemned man was being taken to Auburn prison to be put in the death cell there, and it was expected that the stay would be granted.

THIS FOX WASN'T SLY.

Allowed Himself to be Caught in Coon Trap in Gainesville Store.

There is an old saying, which as a rule is a true one, that a fox is about the slyest proposition ever invented.

But there has at last been proven an exception to the rule in this direction, as G. L. Thompson, the clever sewing machine salesman, has at his home in captivity a young fox which was captured in his office a night or two recently by means of a steel trap.

Miss Norton, who conducts a fancy goods store in the same room with Mr. Thompson, upon going to the store on Tuesday morning, noticed the goods disturbed, and suspicioned that there was something wrong. She as a matter of course did not know what caused this disorder, but thoughtfully set a steel trap which was convenient, with the result that, on the same evening Mr. Thompson, upon entering the store, discovered the fox, securely held in bondage by the trap.

Mr. Thompson has taken the fox home, and proposes to make a pet. The mystery is, how came the animal to be in the store? It is believed that it sought refuge there, through a rear door, from the extremely inclement weather.

CATARRH FROM CHILDHOOD

Cured by Hyomei, the Only Medicine For Catarrh That J. W. McCollum & Co. Are Willing to Guarantee

The popularity and growth of Hyomei are unique in the annals of medicine. The demand for the Hyomei outfit and the extra bottles in Gainesville has been something phenomenal, and J. W. McCollum & Co. say that they have never sold any other remedy which gave such universal satisfaction and made so many remarkable cures.

The worst and most chronic cases of catarrh readily yield to the use of Hyomei. People who have suffered from childhood have been cured by this remedy. J. S. Nugent, treasurer of the American Union Insurance Co., New York City, writes: "Hyomei has completely cured my daughter of catarrh, from which she has been suffering for years."

So many remarkable results have attended the use of Hyomei amongst the customers of J. W. McCollum & Co. that they feel justified in using the strongest possible language in speaking of its virtues, and when you read that they sell it under an absolute guarantee to refund the money if it does not cure, you will see that they fully believe in its curative powers. A complete outfit costs only one dollar, extra bottles 50 cents.

CARD FROM DR. HODGES.

He Scores Mr. Rivers for Calling Fielding Circular a Falsehood.

Editor Sun: I see in today's Sun a card from Mr. J. M. Rivers in which he denounces a circular gotten out by W. E. Baker as false from beginning to end. Now I don't know whether he includes his letter to me or not, that was published in circular, but as he did not exclude anything in the circular he must have meant the letter also. I hold the original letter and will produce it at any time it is demanded.

I am very sorry that things have assumed the shape they are in. I had no idea that any of my correspondence would get into the campaign, and I cannot help from feeling a little hurt with Mr. Fielding for using the correspondence in the manner in which he has.

I was much interested in the race for State Attorney and wanted either Mr. Rivers or Mr. Fielding elected, and believed if both run that Mr. Calhoun would be elected, but thought if either Mr. Rivers or Mr. Fielding would get out of the race that the one who made the race could easily defeat Mr. Calhoun, and I decided to write both of them and see if I could not get them to come to some agreement letting one of them make the race this time and the other the next time. I wrote both of them about the same letter, only difference was to Mr. Fielding that I supported him in the first primary, and to Mr. Rivers that I expected to support him in the second, as I believed him to be the strongest man.

I received a reply from Mr. Rivers the second day after writing him (that is the letter that is published in circular); it was on the second day of June before I received a reply from Mr. Fielding. Both letters stated that they (Rivers and Fielding) had done all they could to adjust the matter with the other, and the other refused. As both seemed willing to do what was right I thought I would send each a copy of the other's letter, and still thought there might be a chance to get them to agree, and one of them make the race. I had no idea of seeing either letter in print, but it seems from the evidence that Mr. Rivers never did do anything toward an adjustment of the matter. I have always looked on Mr. Rivers as an honest and truthful gentleman; I did not think him capable of telling or writing a falsehood, but it really looks now as if he did prevaricate when he wrote me these words: "I have done all that I could to get Fielding to agree to some sort of an adjustment of the matter, but he will not make any sort of an agreement with me whatever."

It seems from the evidence that Mr Fielding tried in every way possible to get Mr. Rivers to some sort of an adjustment of the matter and Mr. Rivers would not. Now I don't know why Mr. Rivers should say that the circular is false from beginning to end, as he must know that I have his letter in my possession and can produce it any time and show that he has misrepresented the facts.

No one regrets this more than myself and I am sorry that I had to write this letter, but do not like for Mr. Rivers to say that I was guilty of telling a falsehood I trust that this will be a lesson to me and in the future I will be more careful how I let my correspondent out.

Respectfully yours,
B. C. Hodges.

Georgia Begins Trial Trip

Rockland, Me., June 14.—The battleship Georgia, built by the Bath Iron works, at Bath, Me., began her builders' trip Wednesday. It was the intention to make fourteen runs at varying rates of speed over the government's measured mile course. The required contract speed is 19 knots. The wind was fair and the weather clear.

SORES AND ULCERS

TROUBLESOME-OFFENSIVE-DANGEROUS

Nothing is more discouraging than to have an unhealthy sore or ulcer resist one treatment after another, sometimes scabbing over and apparently getting well, then returning with renewed energy and becoming worse than before. Sores and ulcers are not due to outside causes; if they were, salves, plasters, lotions, etc., would cure them. They are kept up by a diseased and polluted condition of the blood brought on by the absorption of refuse and waste matters of the body into this vital fluid. These accumulations find their way into the blood, usually because of an inactive and sluggish condition of the system. Nature intends that they shall be carried off through the usual channels of waste, but the different members failing to perform their duties properly leave the matter to sour and ferment. The blood then, in its effort to keep the system healthy, absorbs these poisons and at the first bruise, cut or wound the sore is formed, and the constant drainage of foul matter through it keeps the place open and irritated so it cannot heal. Another cause for old sores and ulcers is the polluting or weakening of the blood from the remains of some constitutional trouble or the effects of a long spell of sickness. S. S. S. begins at the fountain-head and drives out all poisonous matter and germs, and makes a lasting cure. As soon as the system gets under the influence of S. S. S. the inflammation gradually leaves, the flesh takes on a healthy color, and soon the place is permanently healed. Book on sores and ulcers and any medical advice without charge.

REV. ROGERS WILL TALK TO MOTHERS

Has Something of Interest to Tell Them About Their Children.

CHILDREN FULL OF VICE

They Are Addicted to Habits of Which Their Parents Know Nothing, and He is Determined He Will Tell Them in a Pure and Truthful Style.

"I am going to tell these mothers something about their children; and I am going to tell them something which they do not probably know, and will startle them. It may make some of them mad at me, others frown at me—but I have been watching things, and am going to tell the truth."

This was the remark in substance as related by Rev. S. B. Rogers, pastor of the First Baptist Church, to The Sun man Thursday.

Mr. Rogers is not only a faithful pastor to the adult members of his congregation, but he is looking after the religious interests of the Baptist children as well. He has noted, through careful and diligent perusal, certain irregularities which have existed undisturbed in this city, and is determined, if he cannot stop them, to at least inform the parents of their existence.

"I have lived quite a number of years; I have seen a great deal of sin and wickedness, naturally through my earthly existence; I have been in many towns, some 'wet' and some 'dry,' but in all my life, in all my experience and observation, I have never heard as much profanity and indecent language among the people as I have casually heard in the youth of Gainesville since I have been in Gainesville," remarked Mr. Rogers in a recent Sunday evening sermon at his church.

All mothers whose children attend the Baptist church are earnestly requested to be present at a meeting to be held at the church this afternoon at 4 o'clock, when Mr. Rogers will have something to say to their interest.

WOMEN'S NEGLECT

SUFFERING THE SURE PENALTY

Health That Is Lost Is Restored by Lydia E. Pinkham's Vegetable Compound.

How many women do you know who are perfectly well and strong? We hear every day the same story over and over again. "I do not feel well; I am so tired all the time!"

More than likely you speak the same words yourself, and no doubt you feel far from well. The cause may be easily traced to some derangement of the female organs which manifests itself in depression of spirits, reluctance to go anywhere or do anything, backache, bearing-down pains, flatulency, nervousness, sleeplessness, or other female weakness.

These symptoms are but warnings that there is danger ahead, and unless heeded a life of suffering or a serious operation is the inevitable result.

The never failing remedy for all these symptoms is Lydia E. Pinkham's Vegetable Compound.

Miss Kate McDonald of Woodbridge, N. J., writes:

Dear Mrs. Pinkham:

"Restored health has meant so much to me that I cannot help from telling about it for the sake of other suffering women.

"For a long time I suffered untold agony with a female trouble and irregularities, which left me a physical wreck, and no one thought I could recover, but Lydia E. Pinkham's Vegetable Compound has entirely cured me, and made me well and strong, and I feel it my duty to tell other suffering women what a splendid medicine it is."

For twenty-five years Mrs. Pinkham, daughter-in-law of Lydia E. Pinkham, has under her direction, and since her decease, been advising sick women free of charge. Her advice is free and always helpful. Address, Lynn, Mass.

HEALTHY PLANTS

Require the Most Careful Attention as Well as Good Soil.

Did you ever see a rosebush, which—despite the most beneficent environment of sun, of sunshine and of atmosphere—seemed never to achieve a healthy growth?

A load of manure will not help a plant that has a cancer eating out its heart.

You must destroy the cause before you can remove the effect.

You cannot cure Dandruff and Baldness by rubbing on hair lotions and rubbing in vaseline, etc.

You must look to the cause of the trouble. It's a germ at the roots of your hair which causes it to fall out.

Newbro's Herpicide destroys the germ, and healthy hair is the sure result.

Next to the wife beater comes the horse beater and it is to be regretted we have one or two in this community. A horse is the most noble and faithful of animals and the man who would abuse his horse has something lacking in his manhood.

One of our citizens who occasionally wipes the dishes for his wife, became tired of the job and refused, saying that "it is not a man's work." Not feeling disposed to lose his help she brought the Bible out to convince him of his error and read as follows from II Kings 21:13: "And will wipe Jerusalem as a man wipeth a dish, wiping it and turning it upside down." It is needless to say that he is still doing his occasional stunt.

The editor who can please everyone is not suited for this earth, but is entitled to wings. Human nature is so constituted that some of our readers would like to have us feed them on scandal, some would like to have us tell the unvarnished truth about them, while others would kill us if we did. It is a comforting thought to the editor to know that the Lord Himself did not please everyone while on earth. We labor hard to entertain and please our subscribers but that we should occasionally fail is to be expected, but you will always find us willing to be forgiven.

It wasn't a Missouri editor but a printer's devil who was going through his first experience on "making up" forms. The paper was late and the boy got the galleys mixed. The first part of the obituary notice of a pecunious citizen had been dumped in the forms, and the next handful of type came off of a galley describing a recent fire. It read like this: "The pall bearers lowered the body to the grave and as it was consigned to the flames there were few if any regrets, for the old wreck had been an eyesore to the town for years. Of course there was individual loss, but that was fully covered by insurance." The widow thinks the editor wrote the obituary that way because the lamented partner of her joys and sorrows owed him five years' subscription.

While on a pleasure trip in the Mayflower a few days ago on the Potomac, President Roosevelt noted that when the little vessel passed Mount Vernon, the tomb of Washington, the ship's company and marines were called to quarters, the ship's bell tolled, the national colors dipped and the bugle sounded taps. The President was deeply impressed, and learned upon inquiry that while every naval vessel followed this observance when passing Mount Vernon, there was no requirement in the regulations compelling it. As a result he brought the matter to the attention of the Navy Department, and this week Acting Secretary Newberry issued an order amending the regulations making this patriotic tribute mandatory. For 100 years river pilots have kept this ceremony alive, and it has impressed deeply many of the nation's distinguished guests.—Pensacola News.

THE FOURTH'S EXERCISES.

An interesting program, which will also probably prove exciting, has been arranged and published for the celebration of the Nation's birthday, the glorious Fourth of July, when "every American, rich or poor," is expected and usually feel as important and as good as "the other fellow." It is an occasion that has been customary ever since the signing of the declaration of independence, but until the last few years—a little less than a quarter of a century—it has not been generally observed in the South, for reasons known to many.

But the Southern people, while always loyal to the country in which they first saw the light of day—the country which gave them birth—have always been true to their colors and loyal to almost a fault. The younger element, born since the great conflict when this Union was thrown asunder on a question which need not be mentioned, these young sons of the South have come together, and, with that loyal and patriotic blood which flowed through their fathers' veins—that same blood which would now arouse them to the action in defense of that which they thought was right—that same action which, in the time when this Southern country needed men to protect its integrity and its honor, are ready now to show loyalty to the Union, and it does the hearts of the American people good to note the enthusiasm displayed throughout the entire Southland in the loyalty and devotion of our Southern boys. They will "pop" just as many firecrackers and "shoot" just as many roman candles and skyrockets in proportion to population as any other section of this great country, and they will yell with more vigor and as much enthusiasm as the rest of the nation.

We heard one of our young men making sport of religion the other day. His moustache had just began to sprout, and judging from his talk his mental faculties were not as well developed as his moustache. During our brief stay upon earth we have seen many just such young men cold in death. We have seen the atheist at rest in his casket, but before being consigned to their last resting-place they have all been carried through the doors of a church and had prayers said over them. This young man could scoff at religion in the strength and beauty of health, but if the dark angel should get after him he would instinctively regret what he said and look into the future with fear and trembling. When one stands before the open door of eternity his desire to scoff at religion vanishes. We admit there are bad men in the church, but even these black sheep in the flock might be blacker if they were outside. No young man, or old one either, should condemn the noble efforts of the army of Christian men and women are making towards bettering the condition of things, and whether we attend church or not but few of us would desire to live in a community where there was no church.

One of our subscribers took us to task this week for failing, as he remarked, to publish all that happened. It is for this particular individual that discretion occasionally demands the omission of unpleasant items. Should we publish all that is told to us we would be with the angels in about twenty minutes after our papers were mailed. We try to print all items that are news, or that will encourage, help or cheer any of our cities along life's rugged road. We all doubtless would enjoy reading "all the news" when its about the other fellow, but our policy is to turn over to the gossips the spreading of scandals that only leave sorrows in their trail.

FACE AND ARMS ALL BROKEN OUT

Troubled Almost a Year—Physicians Did No Good—Complexion Now Perfect and Skin Soft, White and Velvety. Tennessee Lady

"HIGHLY RECOMMENDS CUTICURA SOAP"

"I had been troubled with a breaking out on my face and arms for almost a year and had the services of several physicians, but they didn't seem to do any good. Some time ago one of my friends recommended Cuticura to me. I secured some, and after using it several months I was completely cured. I can highly recommend Cuticura Soap as being the very best complexion Soap made. It creates a perfect complexion, leaving the skin soft, white, and velvety. I now use Cuticura Soap all the time and recommend its use to my friends." Maud Loggins,

R. F. D. No. 1,

Aug. 1, 1905. Sylvia, Tenn.

ANOTHER CURE

Oct. 26, 1905. Cadiz, Ky.

Stone, who are Chancy's bondsmen. Postoffice Inspector Lake Jones left at once for Saffold to take charge of the office and make a thorough investigation. He will designate one of the bondsmen as acting postmaster until a new postmaster is appointed. A description of Chancy had been telegraphed to postoffice inspectors in several states and every effort will be made to apprehend him.

Twelve Months for Adams.

Atlanta, June 14.—Ed Adams, the negro janitor of the Walker street school, was sentenced by Judge Roan in the Fulton superior court to 12 months on the chaingang, the jury having returned a verdict of guilty of assault and battery. The negro remarked that his sentence was just. The crime for which Adams was tried was that of atempted criminal assault upon Miss Lollie Belle Ward, 14-year-old pupil at the Walker street school, and the daughter of Rev. A. C. Ward, pastor of the Temple Baptist church. He was tried at the April term of the court, but a mistrial was declared, three of the jury holding out for a verdict of guilty of attempted criminal assault, while nine contended for a verdict of guilty of the lesser offense of assault and battery, the law permiting such a finding in criminal assault cases.

Cured of Bright's Disease.

Geo. A. Sherman, Lisbon Red Mills, Lawrence Co., N. Y., writes: "I had kidney disease for many years and had been treated by physicians for twelve years; had taken a well known kidney medicine and other remedies that were recommended, but got no relief until I began using Foley's Kidney Cure. The first half bottle relieved me and four bottles have cured me of this terrible disease. Before I began taking Foley's Kidney Cure I had to make water about every fifteen minutes, day and night, and passed a brick-dust substance, and sometimes a slimy substance. I believe I would have died if I had not taken Foley's Kidney Cure." J. W. McCollum & Co.

Collier's Condition Improved.

Memphis, Tenn., June 14.—The condition of State Representative W. B. Collier, who was recently stabbed in a difficulty with T. R. Tucker, a real estate man of this city, is much improved, his physicians now stating that unless some complication should arise, he will recover. Tucker has been released on bond.

Lexington, Ga., June 14.—George W. Brooks, a prominent merchant of this city, lost his home and much of the contents by fire, the fire originating in the kitchen. Some of his family were sick, and had to be carried out on a matress to a near-by home. While Mr. Brooks had insurance of $1,000 on his home, his loss is great.

NEGRO PROTECTED FROM MOB.

William Lee Accused of Assaulting Two Women.

Cape Charles, Va., June 14.—William Lee, a negro, who was arrested at Cape Charles on suspicion of having assaulted two women near Kingston, Md., Sunday night, is in the county jail at Eastville, Va., under the protection of a strong detachment of the Seventy first Virginia regiment. At a late hour Tuesday night the town of Eastville was quiet, and no trouble was expected during the night.

The crime for which Lee is held was committed on Mrs. Robert Barnes and Miss Francis Powell, her cousin, as they were returning from church. Their assailant escaped in the direction of Cape Charles and a general alarm was sent out for his capture. The Cape Charles authorities picked up Lee on suspicion and notified the Maryland authorities.

When the news of Lee's capture reached Somerset county, in which KKingston, is located, a party was organized and left for Cape Charles with the avowed purpose of lynching Lee.

The Cape Charles authorities were warned and Monday night Lee, under heavy escort, was taken to the Northampton jail. Early Tuesday the Maryland mob arrived and it became so threatening that Commonwealth Attorney F. Tucker Wilkins and Sheriff Jarvis called on Governor Swanson, of Virginia for troops. The governor promptly sent 150 men from the Seventy-first regiment to Norfolk. The soldiers arrived at Cape Charles at 6 p. m. in a special boat.

The two women went to Eastville during the day for the purpose of identifying Lee, but up to a late hour in the night the authorities would not permit the women to see the negro. The Northampton authorities fear that if the women should identify Lee, the mob might rush through the troops and attempt to gain an entrance to the jail.

Following the Flag.

When our soldiers went to Cuba and the Philippines, health was the most important consideration. Willis T. Morgan, retired Commissary Sergeant, U. S. A., of Rural Route No. 1, Concord, N. H., says: "I was two years in Cuba and two years in the Philippines, and being subject to colds, I took Dr. King's New Discovery for Consumption, which kept me in perfect health. And now, in New Hampshire, we find it the best medicine in the world for coughs, colds, bronchial troubles and all lung diseases. Guaranteed at all druggists'. Price 50c and $1. Trial bottle free.

Raleigh, N. C., June 14—Bud Richardson, the negro boy who was shot by Miss Pearl Jones, night operator of the Bell Telephone company, at Selma, who feared an attempt at rape, when she found the negro prowling around, died Tuesday afternoon. Jim Merritt, the 16-year-old negro who, Richardson swore, was his accomplice, was brought here and placed in jail for safekeeping, as there were reports of an attempt to lynch him.

Stimulation Without Irritation.

In case of stomach and liver trouble the proper treatment is to stimulate these organs without irritating them. Orino Laxative Fruit Syrup aids digestion and stimulates the liver and bowels without irritating these organs like pills or ordinary cathartics. It does not nauseate or gripe and is mild and pleasant to take. J. W. McCollum & Co.

RIVERS THE WINNER.

By a Close Vote He Defeated Fielding for State Attorney in Eighth Circuit.

There was nothing new in the election news during yesterday—that is, nothing that would tend to change the result.

It is unofficially reported, however, that all returns are in, and that Mr. Rivers, for State Attorney, wins over Mr. Fielding by seventeen votes, which makes one of the closest races ever held in a circut as large as the Eighth.

Mr. Calhoun of Putnam, the present State Attorney who was again a candidate, made an excellent race in the primary of May 15, securing a plurality. It was expected by his friends, the race again being a plurality one, that he would win out easily; but for some reason he lost the prestige commanded in the first primary, with the result that he was hopelessly in the minority. Many of his friends, however, were loyal, and did all they could for his election.

For county commissioner, as has already been stated, Mr. Dampier wins easily over Mr. Cason, Mr. Dampier's majority being 156.

HIGH SPRINGS STRIKE.

Sheriff Fennell and Deputies Return. Everything is Quiet.

Sheriff Fennell and his deputies, who went to High Springs by urgent call on a special train Wednesday night, returned to this city Thursday morning.

Sheriff Fennell, when asked concerning the matter, stated that he could find out nothing. He stated that there had been promiscuous shooting in the yards of the Atlantic Coast Line at High Springs, but that, notwithstanding his persistent efforts, it was impossible to ascertain who did the shooting.

As everything was quiet, and indications were that the conditions would remain so, he decided to return to Gainesville, as the presence of the officers on the scene he deemed useless.

Sheriff Fennell stated that in one instance it was reported to him that the lantern was shot out of a man's hand.

R M Chamberlain, the trucker of Tacoma, was among those who paid Gainesville a visit yesterday. Several months ago Mr. Chamberlain had the misfortune to lose his handsome home by fire, and at the time was himself painfully burned, but he is now rebuilding, and will make his new home more convenient than the former one, if possible. 'Dolph has many friends here who are always glad to greet him.
